Source: EPFO

SOMESH JHA  
New Delhi, 20 November

Around four million formal sector workers will be eligible for provident fund subsidy from the central government as they had left their jobs during March-September.

The payroll data released by the Employees' Provident Fund Organisation (EPFO) on Friday showed around 3.9 million workers had exited the firms that were making EPF contributions towards them.

The Centre had announced the Atmanirbhar Bharat Rozgar Yojana to incentivise formal sector job creation. Under this, the government will subsidise full EPF contribution of workers who are hired between October 2020 and June 2021.

All 'new employees', who were never a part of the EPF system in the past, and those who made an exit from employment during the Covid-19 pandemic from March 1, 2020, to September 30, 2020, will be eligible for the benefit.

At present, both employers and employees contribute 12 per cent each of a worker's wage towards schemes under the EPFO. The government will sponsor both the employer's and employee's share for firms with up to 1,000 employees and only the employee's share in case of firms with over 1,000 employees, for a period of up to two years.

However, the figure of exits which are in public domain may be on the downward side. This is because the employers are not legally bound to inform the EPFO about the exit of an employee in a timely manner. The dates of employment exits are updated mostly when EPF claims are filed by employees, usually after months of leaving the job.

For instance, the data for April, the first full month when a strict national lockdown was imposed, is still being updated ever since the data was first made public for this month in June. Same is the case for May, June, July and August as the data of employee exit saw a sharp revision to when the data was last released in October.

Another issue that points to underestimation is that the EPFO doesn't update the records for a financial year after it has released data for all the months in public domain. This means that the March 2020 data, which was released in May, will not be revised further as the EPFO will put out the data for full fiscal year 2019-20 in the next release. This means the number of exits, which was around two million when the data was released in May, will continue to remain so in public records.

The data released by the EPFO showed a 70 per cent jump in net enrolments for September to 14.9 million. However, the payroll data continues to remain volatile, according to the EPFO's own admission in a press statement on Thursday.

# LVB workers express concerns over merger

HAMSINI KARTHIK  
Mumbai, 20 November

Stakeholders of Lakshmi Vilas Bank (LVB), now placed under moratorium and proposed to be merged with DBS Bank India (a subsidiary of Singapore-based DBS Bank), furnished their suggestions and objections to the Reserve Bank of India (RBI) on Friday, the cut-off date set by the regulator.

Shareholders have requested the RBI to reconsider its decision on delisting LVB's shares from the stock exchanges. "With over 20 per cent retail investor participation, it would be in the best interest of all shareholders if we are able to get some value for our shares," said an investor.

## DBS offered to buy 50% of LVB, RBI rejected

K R Pradeep, the single largest promoter of the crippled Lakshmi Vilas Bank with a 4.8 per cent shareholding, has said that Singapore's DBS was keen to acquire 50 per cent stake in the lender for a high valuation in 2018 but the Reserve Bank did not allow the deal to go through.

## CARE revises LVB's ratings

CARE Ratings revised its rating of Lakshmi Vilas Bank (LVB) from "BB-" Negative to "BB-", putting it under Credit watch with developing implications. This comes after the Centre imposed a moratorium on LVB, after considering an application from the RBI.

T E NARASIMHAN

Employees of LVB have been given an assurance that their jobs are secure for about three years in the amalgamated bank. However, that hasn't been enough to convince them of the merger.

"The employees' association has also recommended in favour of amalgamating with a public sector bank, akin to the stand taken by the bank's union," said a person aware of the development.

The proposed terms of amalgamation state that employees of LVB will be absorbed into the merged bank on the current terms of their employment. While LVB need not remunerate its employees based on the salary structure mandated by Indian

Banks' Association (IBA), given its recent exit from the industry body, they had foregone salary increments for the past two years. Fearing that salary arrears may not accrue to them upon merger with a foreign bank, employees have expressed their objection to the merger with DBS Bank India. Earlier, the All India Bank Officers' Confederation (AIBOC) had also said it was not in favour of DBS Bank India acquiring the Tamil Nadu-based bank.

The RBI is expected to finalise the terms of the merger early next week. LVB was placed under moratorium for a month on Tuesday. A cap of ₹25,000 has been imposed on withdrawal of deposits till December 16.

# Exports may be muted as WTO warns of growth slowdown in global trade

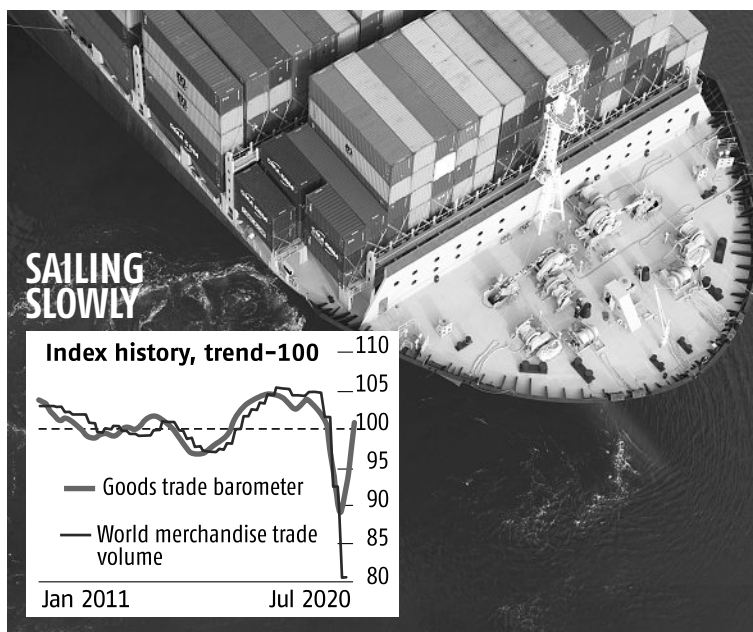

INDIVIA DHASMANA  
New Delhi, 20 November

In what could have an adverse impact on India's exports, the World Trade Organisation (WTO) has warned the growth rate in global merchandise trade is likely to slow down during October-December this year as several countries impose fresh lockdowns in light of the second wave of Covid-19. "... growth in (global trade) is likely to slow in the fourth quarter (October-December, or Q4) as pent-up demand is exhausted and inventory restocking is completed," the WTO said in its latest report.

It said trade-related uncertainty remains high. "A second wave of Covid-19 infection is already underway in Europe and North America, leading to renewed lockdowns that could trigger another round of business closures and financial distress."

However, it noted that progress has been reported in the development of a vaccine, but when and how it might be deployed is not yet known.

Exports had recovered 5 per cent in September after months of contrac-

tion. However, that recovery turned out to be short-lived as exports again contracted - 5.12 per cent - in October year-on-year (YoY) due to the

new spread of Covid-19 in countries that are India's main trading partners. Aditii Nayyar, principal economist at ICRA, said, "We are apprehensive

that contraction in exports seen in October may continue in the near term till the second wave of infections comes under control and restrictions are eased."

However, a yardstick to gauge the global trade, called the Goods Trade Barometer, stands at 100.7. This marks a dramatic improvement from 84.5 recorded in August, which reflected collapsing trade and output in Q2 as lockdowns and travel restrictions were employed to fight the virus. The latest reading indicates a strong rebound in trade in Q3 (July-September 2020) as lockdowns were eased.

A reading of 100 indicates expansion in line with medium-term trends; a reading greater than 100 suggests above-trend growth, while that below 100 indicates below-trend growth.

The latest reading of the barometer is consistent with the WTO's revised trade forecast given last month which predicted a 9.2 per cent decline in the volume of world trade in 2020.

This outcome would require a sharp rebound in Q3 following the 17.2 per cent YoY decline registered in Q2 (April-June).

## Bank credit up 5.7%, deposits rise 10.6%, shows RBI data

**Loan growth to the services sector accelerated to 9.1% in September 2020 from 7.3% in September 2019**

PRESS TRUST OF INDIA  
Mumbai, 20 November

Bank credit grew by 5.67 per cent to ₹104.04 trillion, while deposits increased by 10.63 per cent to ₹143.80 trillion in the fortnight ended November 6, according to the Reserve Bank of India data.

In the fortnight ended November

8, 2019, bank credit stood at ₹98.46 trillion and deposits at ₹129.98 trillion.

In the previous fortnight ended October 23, 2020, bank credit had risen by 5.06 per cent and deposits by 10.12 per cent. On a year-on-year (YoY) basis, non-food bank credit growth decelerated to 5.8 per cent in September 2020 from 8.1 per cent in the same month of the previous year, according to the central bank data. Credit to industry recorded 'nil' growth in September 2020 as compared to 2.7 per cent rise in September 2019. Credit to agriculture and allied activities rose by 5.9 per cent during the reporting month, as against a growth of 7 per cent in the same month last year.

Loan growth to the services sector accelerated to 9.1 per cent in September 2020 from 7.3 per cent in September 2019.

Personal loans registered a growth of 9.2 per cent in the month compared to 16.6 per cent growth in September 2019.

## Forex reserves surge to record \$572.77 billion

NEW HEIGHTS

The country's foreign exchange reserves swelled by \$4.277 billion to a lifetime high of \$572.77 billion in the week ended November 13, RBI data showed. In the previous week ended November 6, the reserves had risen by a massive \$7.779 billion to \$568.494 billion. In the reporting week, the jump in reserves was on account of an increase in foreign current assets (FCAs), a major component of the overall reserves. FCAs climbed by \$5.526 billion to \$530.268 billion, the Reserve Bank of India's weekly data showed. Expressed in dollar terms, the foreign currency assets include the effect of appreciation or depreciation of non-US units like the euro, pound and yen held in the foreign exchange reserves. The gold reserves declined by \$1.233 billion in the reporting week to \$36.354 billion, as per the data. The special drawing rights with the International Monetary Fund (IMF) remained unchanged at \$1.488 billion. PTI

# India to see ₹2 trn investments in compressed bio-gas sector: Pradhan

SHINE JACOB  
New Delhi, 20 November

Petroleum Minister Dharmendra Pradhan said on Friday that the country is likely to see investments worth ₹2 trillion to set up 5,000 compressed bio-gas (CBG) units across the country.

The minister was addressing an event after signing the memorandum of understanding for setting up 900 CBG plants as part of SATAT (Sustainable Alternative Towards Affordable Transportation) initiative by the government.

On Friday, the Ministry of Petroleum and Natural Gas signed MoUs with energy companies like JBM Group, Adani Gas, Torrent Gas and Petronet LNG for setting up the CBG plants. The ministry also signed MoUs with technology providers in CBG sectors like IndianOil, Praj Industries, CEID Consultants, and Bharat Biogas Energy.

Pradhan said, "We have developed a clear-cut roadmap for SATAT. Letter of intent for 600 CBG plants have already been given and with today's signing of MoUs for 900 plants, a total

DHARMENDRA PRADHAN, Petroleum minister

**We have developed a clear-cut road map for SATAT. Letter of intents for 600 CBG plants have already been given and with today's signing of MoUs for 900 plants, a total of 1,500 CBG plants are at various stages of execution."**

of 1,500 CBG plants are at various stages of execution." Around ₹30,000

crore of investment is envisaged in these 900 plants. "A total of 5,000 CBG plants with an approximate investment of ₹2 trillion are envisaged. Biofuels have the potential to reduce our fuel import bill by ₹1 trillion," he added.

Pradhan said the Reserve Bank of India (RBI) has included CBG in the priority sector lending framework. SATAT, an initiative to boost production and availability of CBG as an alternative and affordable clean fuel for transportation, was launched in October 2018. The scheme envisages setting up of 5,000 CBG plants by FY24.

"Benefits out of the SATAT will go to our farmers, rural areas and tribals. With inclusion of forest waste, agri-waste, animal husbandry waste and marine waste, SATAT involves a multi-pronged approach. With the liberalised policy regime ensuring ease of doing business for entrepreneurs, off-take guarantee, financing and technology support, SATAT is all set to contribute towards doubling farmer's income, generating employment for the youth and ensuring clean energy for sustainable development,"
