Dear Sir/Madam,

Subject: Intimation under Regulation 30 of the SEBI (LODR) Regulations, 2015

This is in reference to our earlier intimation dated June 26, 2026, regarding the recommendation received from the Subject Expert Committee (SEC) (Neurology & Psychiatry) of the Central Drugs Standard Control Organisation (CDSCO) for the grant of permission to manufacture and market of Cenobamate Tablets 12.5mg, 25mg, 50mg, 100mg, 150mg & 200mg.

We hereby inform you that the Company has received approval from the Drug Controller General of India (DCGI), under the Central Drugs Standard Control Organization (CDSCO), for the manufacture and marketing of Cenobamate API and Cenobamate Tablets in strengths of 12.5 mg, 25 mg, 50 mg, 100 mg, 150 mg and 200 mg.

The press release issued by the Company in this regard is enclosed herewith for your information.

Kindly take the same on record.

Thanking You,

For and Behalf of Bajaj Healthcare Limited

Investor Release

Bajaj Healthcare becomes the first Company to launch Cenobamate in India, receives DCGI approval to manufacture and market Cenobamate API and Tablets across six strengths

Mumbai, 12th August 2026: Bajaj Healthcare Limited is pleased to announce that it has received approval from the Drugs Controller General of India (DCGI) under the Central Drugs Standard Control Organization (CDSCO) to manufacture and market Cenobamate API and Cenobamate Tablets in strengths of 12.5 mg, 25 mg, 50 mg, 100 mg, 150 mg and 200 mg.

With this regulatory approval, Bajaj Healthcare Limited becomes the first company to launch Cenobamate in India, marking a significant milestone in the Company's journey towards bringing advanced therapies to patients and further strengthening its presence in the Central Nervous System (CNS) segment.

The approval follows the recommendation of the Subject Expert Committee (SEC) for grant of approval for the manufacture and marketing of Cenobamate Tablets, as previously communicated by the Company through its press release dated 26th June 2026.

Cenobamate is a next-generation antiseizure medication indicated for the treatment of partial-onset seizures in adults. Clinical studies have demonstrated significant seizure reduction and high seizure-freedom rates in patients with inadequately controlled epilepsy, supporting its potential as an important treatment option in the evolving landscape of epilepsy care.

Commenting on the milestone, Mr. Anil Jain, Managing Director, Bajaj Healthcare Limited, said: *"We are extremely pleased to announce that Bajaj Healthcare is the first company to launch Cenobamate in India. The DCGI approval for Cenobamate API and Tablets reflects our continued commitment to developing and bringing differentiated, complex and high-value pharmaceutical products to the Indian market. This achievement also demonstrates the strength of our integrated API and formulation capabilities. Cenobamate represents an important addition to our CNS portfolio and provides us with an opportunity to contribute to the availability of an advanced treatment option for patients suffering from epilepsy. We are now focused on taking the product to the market and building Cenobamate as an important addition to our pharmaceutical portfolio. We believe this launch will further strengthen our CNS franchise and create a meaningful opportunity for sustainable long-term growth for Bajaj Healthcare."*

About Bajaj Healthcare Ltd:

Bajaj Healthcare Limited is a leading manufacturer of APIs, Intermediates and Formulations. Established in 1993, it has built a strong reputation for delivering high-quality pharmaceutical products, nutraceuticals across various therapies. The Company operates state-of-the-art manufacturing facilities that are designed to meet the requirements of both regulated and emerging markets. With a growing global presence, BHL serves customers across Europe, the USA, Australia, the Middle East, and South America.
